

## How observant are you?

**REMEMBER!** Don't pick anything along the trail and never eat anything unless you're with a qualified expert.

Hazel catkins

How long is the longest that you can find?

Frogs

Listen carefully as you go round the path. Try to hear them croaking as well as seeing their spawn.  
What have you seen? Frogs spawn or tadpoles?

Robin

Have you seen a robin?

Daisy

How many flowers have you seen?

Molehills

They like picnics, but can you find any in the forest?  
Picnic          Forest

Animal tracks

Can you see any deer tracks, look carefully at the sides of the path.

Horse chestnut

The buds become sticky before the leaves burst out.

Streams

How many streams do you cross as you walk round the trail?

Ash tree

Ash trees have black buds.

Coal tit

The coal tit has a grey back, black cap, and white patch at the back of its neck. (Check the feeders.)

Snowdrops

Ivy berries

(Check around the car park)

Scarlet elf cup

Past the hides and up into the forest. How many of these red "cups" can you find?

How many different birds have you seen on your walk?  
List them!

Seen something else?  
Draw it!

Lichen

Look carefully near where the paths split and see if you can find the **British Soldier Lichen**, with its red spore-producing structures on the rotting wood.
